

Woodward Series Gauges Catalog

The Woodward Series, the original period styled instruments. Mix and match sizes to create just the right look. Our period look instruments have the great styling features you have come to expect from New Vintage. The exclusive inner accent ring is on every set, others simply print silver on the dial, we took the time to add a real plated part to match our stainless bezel. The bold, wraparound deco styled graphics stand out without looking out of place. A domed glass lens caps off the look in a luxurious manner. Our programmable speedometers are easy to program, hit the button, drive a mile, hit it again, you're done! Works with any speedometer sender aftermarket or stock. With or without our exclusive cover bezel, these sets have the right look, performance you expect and the right price, all with our 5-year warranty

As always, our gauge kits include **EVERYTHING** required to install:
Sealed Packard connectors with 12" of color-coded wiring where required
GM style electronic speedometer sender or Ford style speedometer sender
Momentary pushbutton switch
Detailed, clear instructions
Oil pressure sending unit
Water temperature sending unit
Fuel level sending unit (universal sets only)
Mounting hardware
Sender bushings

Made In The USA

Some of the outstanding features:

- Glass, domed lens-No scratchable plastic
- Stainless steel trim ring
- Easy-plug Packard connectors with color-coded harness for simple wiring
- Bright stainless inner accent ring
- Large full-wraparound call-outs
- Stylized hash marks
- Full electronic, air-core movement
- Push-to-calibrate function. Push a button , drive a mile, push it again, and you're done! No DIP switches or calculations.
- Hourmeter: Really know how many hours your engine has been running
- Cover bezel with windows on quad gauge: Just like cars of the past, we felt it necessary to include this feature to bring the product into the "period correct" category

2 GAUGE KITS

WOODWARD SERIES 3-IN-1 GAUGE KITS

Woodward Series 4-3/8 3-1 kit

The same great looks of the Woodward Series, in a balanced, attractive package. Turn signals, high-beam and warning lamps incorporated into the gauges. Everything you could ask for in a gauge set. Ditch the tiny tach on the bottom of your speedo and step up to the Woodward Series 3-1 gauge set. Set includes temperature, pressure, GM speedometer sender, brackets and color-coded wiring harnesses. Available in universal, GM, Ford and Chrysler kits as well as metric.

3 GAUGE KITS

NVU 3 gauge kits bring authentic, period styled graphics along with that big-and-little gauge layout so popular in the 1930s. Choose the functions and styles you want to create a dash that is unique, different and yet appears like it was meant to be that way. Outer gauges are 3-3/8", Center gauge is 4-3/8"
All speedometers are programmable, fuel level gauge is 240-33 w/ sender. Includes GM style speed sender.
